

Marine Bioresources NEWS BULLETIN November 2018

New Blue Bioeconomy study published

Meredith Lloyd-Evans of BioBridge contributed to the EUMOFA study which has recently been published
“Blue bioeconomy. Situation report and perspectives”.
http://eumofa.eu/documents/20178/84590/Blue+bioeconomy_Final.pdf

EC- Blue economy call **Deadline for applications 31 Jan 2018**

with 3 main areas: **Blue labs, Blue careers and Blue economy**

http://ec.europa.eu/research/participants/data/ref/other_eu_prog/emff/wp-call/call-fiche-emff-blueeconomy-2018_en.pdf

EFIB 2018- video

EuropaBio has released a 2 minute video giving a feel of the event <https://www.youtube.com/watch?v=VhRWypWjyWA>

6 new BBSRC NIBBs

£11 million of funding awarded including **Algae-UK: Exploiting the algal treasure trove**

<https://bbsrc.ukri.org/news/people-skills-training/2018/181101-pr-11m-to-fund-industrial-biotechnology-and-bioenergy-networks-announced/>

The Blue Bioeconomy Forum (BBF)

An EC initiative to boost the development of the blue bio-economy in Europe. For more information, news and input
into the survey please visit <https://webgate.ec.europa.eu/maritimeforum/en/frontpage/1349>

A new bioeconomy strategy for a sustainable Europe

http://europa.eu/rapid/press-release_IP-18-6067_en.htm

BIOPROSP 2019 Call for abstracts https://www.tekna.no/en/events/bioprospect_19-35869/Info/?info=53761

Vaccines made using algae

are being developed to keep fish free from disease and help protect the UK's aquaculture industry.

<https://bbsrc.ukri.org/news/food-security/2018/181119-pr-funding-for-uk-aquaculture-research-and-innovation/>

2018 Edition of “The EU fish market”

is now available at <http://eumofa.eu/market-analysis#yearly>

How Algae could sustainably reduce the carbon dioxide concentration in the atmosphere

13.11.18 Researchers at the Technical University of Munich are using algae
to convert waste gas from manufacturing facilities into carbon fibre <https://www.tum.de/en/about-tum/news/>

We hope that you find this newsletter interesting and useful. Feel free to submit news items for our next edition; and encourage colleagues who would like their own copy to get in touch with us.

University of Michigan

researchers are awarded \$2 million from the Energy Department to develop a **biofuel from algae**
<https://news.engin.umich.edu/2018/10/from-ponds-to-power-2m-to-perfect-algae-as-a-diesel-fuel/>

P.E.I. government has approved a \$2-million loan to help AquaBounty

that the biotech salmon grower intends to use for two new plants.
AquaBounty says that it produces salmon that grow twice as fast as traditional, farmed Atlantic salmon. <http://aquabounty.com/p-e-i-approves-2m-loan-for-genetically-modified-salmon-grower/>

Post-doc positions in metabolomics and LC-MS analytical chemistry at GEOMAR

Application deadline 5th December, start date ASAP

<https://www.geomar.de/en/service/karriere/open-positions/article/postdoktorand-postdoktorandin-mwd-in-metabolomik/>
